About Us

Signature Garage Doors is an Australian owned and operated manufacturing company established by experienced craftsmen who have over 25 years of combined custom garage door building experience.

Our vision at Signature Garage Doors is to exceed your expectations. We realise that customer service along with quality is a priority when it comes to your custom garage door. Our experienced staff can help answer any questions in order to help you achieve your desired result.

Built in our innovative manufacturing facility, our doors are constructed individually to our customers detailed specifications. All our doors are hand assembled, sanded, and carefully examined & evaluated by our experienced quality control staff to ensure exceptional standards are continuously met. Always striving for continuous improvement and with the ability to reinvent ourselves, we have the resources to serve our customers for many years.

With our excellent communication and friendly customer service, our customers can rest assured they are dealing with a reliable company who will take care of their custom garage door needs.
